

The image features a collection of various metal components, including bolts, nuts, washers, and custom-fabricated parts, arranged on a white surface. The parts are primarily made of brass and stainless steel. In the background, there are several thin, curved lines in shades of blue and purple, creating a modern, technical aesthetic. The logo for Rajvanti Metals is positioned at the top center, consisting of a stylized 'RM' monogram in blue and dark blue, followed by the company name 'RAJVANTI Metals' in a bold, sans-serif font.

WHERE METAL MEETS MASTERY

About Us

Established in 1995. Rajvanti Metals started as small job work unit with strict quality standard and control measures. The company is committed to quality and timely delivery. To satisfy customer by quality product is our main aim. For quality product, convert it into brass extrusion rod and then manufacture the product. Our products range consist 3mm to 125mm and 0.0003 gram to 5.000 kg in various materials like brass, copper, aluminium and gunmetal. We welcome our valued customers to visit our company anytime.

Rajvanti Metals has gained Recognition as a reputed manufacturer of high quality products.

The excellence in manufacturing, product designs and the performance over a decade has enabled the company to offer Unique Quality Products and confirm to latest National & International standards. The company is committed to achieve leadership position in the Electrical, Electronics & Automative Industries.
